

Genevieve Candelora
Trainer

Genevieve Candelora is a Prenatal to 36 Month Growing Great Kids Curriculum Trainer and Technical Assistance/Quality Improvement Facilitator for the Province of Saskatchewan, Canada. With her primary focus being on caring for and parenting her 2 young children, her current work with GKI involves the provision of Growing Great Kids Curriculum Orientation Webinars for programs interested in learning more about the GGK Curriculum and Training. Genevieve’s educational background is an Applied Bachelor's Degree in Child Studies and a Children's Mental Health Certificate from Mount Royal University in Calgary, Alberta, where she grew up. Genevieve currently live in a small northern Saskatchewan community called La Ronge with her husband and 2 children.

“From the moment I was introduced to the GGK Curriculum I was in love and knew that through this incredible curriculum, families would reach their potential and grow and flourish in the context of their family, culture and community. What I did not expect was how it would change me- as a service provider, trainer and now mother to my very own beautiful children. I am very passionate about families and children growing and being the best that they can be, and that includes my own. GGK is the vehicle through which we can achieve this and it is a true gift to many!”
