

Pam DeAngelis
Coordinator, Training and Meetings

Pam DeAngelis, GKI's Training & Meetings Coordinator, has worked in the Non-Profit community for 30 years. Before she joined Great Kids, Inc. in 2011, she worked in the foster care and adoption field with the State of Kentucky. Prior to that, she spent four years traveling with a world hunger organization and served as their accounting assistant and public liaison to projects receiving financial aid throughout the United States and Canada. She enjoyed the fellowship of the families and staff that worked together to bring sustainable means for lower income families to feed and often earn a living through small family markets, local businesses and food co-ops. She began her administrative business career with a local Mental Health facility that specialized in drug and alcohol treatment for youth. She spent 15 years with this organization as an Office Manager and site supervisor.

Pam studied at Morehead State University and enjoys working with nonprofits supporting families trying to improve their lives. "I believe my life is more meaningful and I am better served by helping people to help themselves." Pam resides in Kentucky with her family and enjoys spending time outdoors and still loves to travel.
